Make an algorithm to solve 3x+0.25= 14.25

Step 1: add 3x and 0.25 together to make 3.25x
Step 2: take 3.25x and divide 3.25 by -3.25 to isolate x
Step 3: divide 14.25 by -3.25 to get your final answer to "what is x?"
